

Bayside Ballcons - Jason Kim + Derek Song
 APC52 p8
 HW#56 -- Orienting Your Up Goer
 2018-06-01

Flowchart for Driver

Steps for certain classes/functions

Map

- ① 2D array with tiles that have png photos (in constructor)
- ② Display method will go through the array and set appropriate x and y coordinates.

Battles

- ① The higher speed will go first
- ② They attack with either `attack()`, `MAtk1()` or `MAtk2()`.
- ③ If their opponent is defeated, battle is over
- ④ If not, their opponent attacks.
- ⑤ Check if they are defeated.
